Invitation

Dear Exhibitor,

We are pleased to invite you to our 52nd International Mineral Days Basel from December 2nd and 3rd, 2023 in the Messe Basel, Hall 2.0.

The hall layout remains unchanged within the framework of small adjustments and again offers you a generous amount of space. Thanks to good planning, we were also able to keep the stand prices at the level of last year.

Unloading and loading zones remain the same. Please note the access times and rules for the hall further down in the letter.

In the future, we will no longer issue the visitor guide in printed form and will increasingly use electronic information on our exhibition website. It is now possible for you to place an advertisement on our website. This will remain online until August 2024 and can then be renewed.

Visitors now receive a folding flyer with the list of exhibitors (name, stand number, place of residence)

We will now carry out the exhibition with our partners from Kiuseki (stone art according to Japanese philosophy) and show visitors a new and expanded insight into the world of stones.

The Alpin Corner has always met with great interest in recent years. Hopefully, thanks to the support of many spotlights, we will be able to present current and first-class finds again this year.

For big and small visitors there is an active competition and accompanied stone processing with beautiful minerals and fossils to choose and keep for yourself.

The Café Mineral, led by the 1st Basel Women's Jodel Choir, will also spoil you with culinary delights.

With your help, first-class material and attractive presentation, we will certainly achieve our goal of maintaining and even improving our high level of quality.

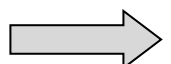

If you have any further questions, please do not hesitate to contact me personally.
Best regards,

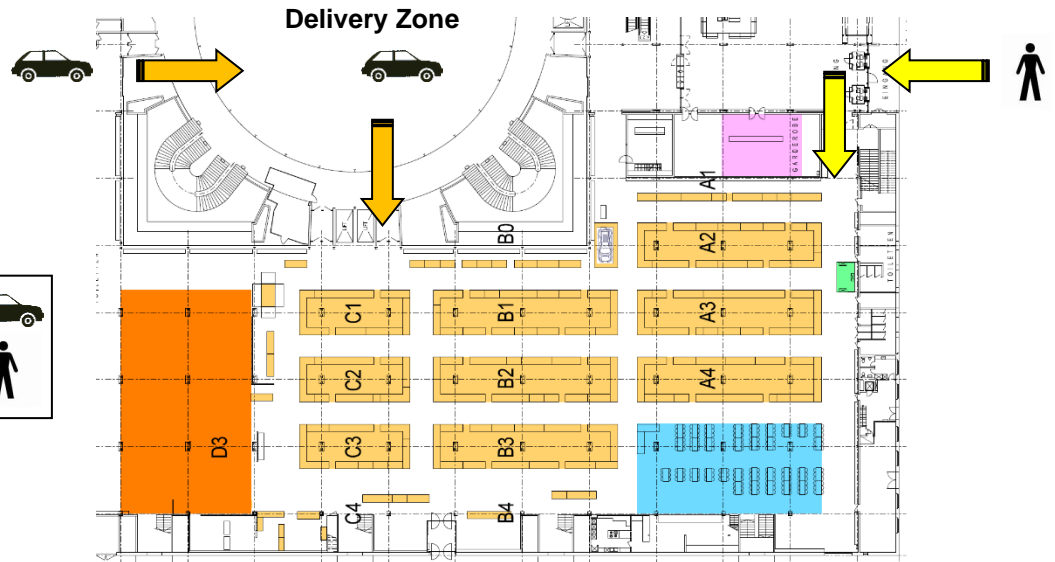

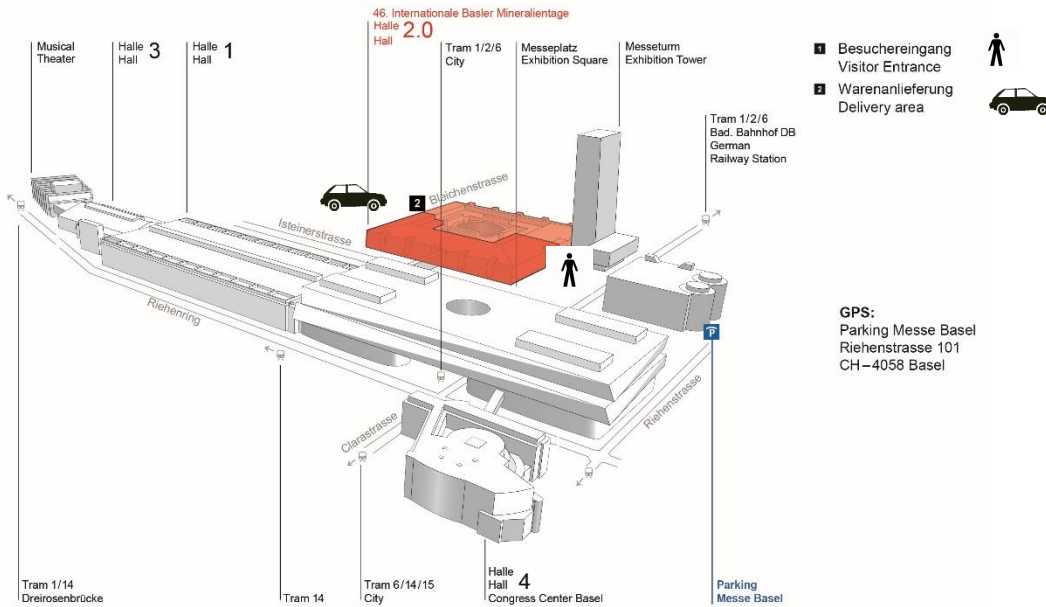

SEKTION BASEL SVSMF
Exhibition Management

52. International Mineral Days Basel 2023

Version 1.00 Stand Juli 2022

Show Regulations

1.	Place Registration	Registrations received after the registration deadline can only be considered if there are still free places available.
2.	Reservation expiry	Reservations that have not been paid within 30 days of receipt of the invoice will expire after a single reminder.
3.	Allocation of space	This is based on the quality of the exhibits. Minerals and fossils have priority, as do unset gemstones and high-quality jewellery, over other cut materials
4.	Stone jewelry Ornaments	Approved if the proportion of stone is dominant and the production is of an artisanal nature and of impeccable quality
5.	Material declaration	Each object sold must be accompanied by a find label or a material declaration, which should contain the following information: for Minerals: Correct mineral name (internationally recognized) Origin / locality, price for any ground material Correct mineral name or designation according to the current CIBJO standard, also genuine / natural or reconstructed or doublet or triplet, origin / locality, price, company. Misleading fancy names are strictly forbidden. Metal content in jewelry etc Metal parts on jewelry according to their composition e.g. 750 gold, silver-plated, etc.
6.	Additional declaration	Exhibits that have been treated in any way, e.g. glued, repaired, conserved, embellished, polished etc. must be clearly labeled accordingly. Surrounded or embedded fossils or collages must be clearly identified as such.
7.	Precious metals	Exhibits containing silver, gold or other precious metals must be stamped correctly in accordance with the regulations of the Federal Precious Metals Control.
8.	Prohibitions	Artificial, synthetic or colored minerals/fossils/precious stones, as well as plastic casts of fossils, mounted minerals/fossils, products from irradiation processes, recent shells and corals (foam corals), pearls, ivory, as well as pure souvenir items and objects from mass production, objects without mineral content and reference to a mineral show, gemstone imitations, recolored objects. Crystals with artificial surfaces added by subsequent cutting. Cult and occult objects, as well as purely esoteric material. Bath and food salts (e.g. also Himalayan salt) Flower vases and the like with less than 50% minerals/fossils The range of healing stones is subject to certain restrictions, e.g. pronounced massage stones or other objects of a non-exhibition aspect are excluded from sale. Mineral preparations in the form of ointments and for oral application are also prohibited. The material declaration according to Zf.5 and 6 also applies without restriction to healing stones. Prohibited material may also not be used as decoration.
9.	Responsibility	In any case, the stand owner assumes full personal responsibility for himself and his stand personnel for all activities related to the sale. Violations of the exhibition regulations will be punished.
10.	Stand Lighting	Lamps that change the color of the exhibits or intensify them in an unnatural way are prohibited.
11.	Sales Discounts	Sell-out practices with wholesale discounts and modified price labels are prohibited. Price tags only have one price.
12.	Restrictions	Salt lamps, stone trees max. 3 pieces per meter
13.	General	Spaces that are not occupied two hours after the start of the exhibition will be filled again. Exchanging places, subletting and leaving the exhibition early without the consent of the exhibition management are not permitted. Insurance coverage is the responsibility of the exhibitor; the exhibition management declines all liability. The prices of all goods displayed and offered for sale on the table and in the showcases must be clearly visible.
